## Customer Reviews

"Good Leaders Ask Great Questions" caught my attention immediately upon publication. The art and power of asking questions became a subject of interest for me in the 1990s as I watched the award-winning PBS Fred Friendly Seminars. Friendly utilized the Socratic Dialogue format to explore urgent social and public policy issues. Socratic questioning is disciplined questioning that can be used to pursue thought in many directions and for many purposes, including: to explore complex ideas, to get to the truth of things, to open up issues and problems, to uncover

assumptions, to analyze concepts, to distinguish what we know from what we don't know, to follow out logical implications of thought or to control the discussion. Author John Maxwell in "Good Leaders" adapts this format to great, day-to-day leadership by emphasizing the effective use of questions for:

- \* Getting profound answers with profound questions that can facilitate confidence, wise decision-making, crystal-clear focus in life, prioritization.
- \* Unlocking and opening doors that otherwise remain closed, yielding possibilities that can lead to opportunities, experiences, and understanding people.
- \* Connecting with people. What is asked matters. So does how it is asked.
- \* Cultivating humility. Fear of being unable to say "I don't know" keeps leaders vulnerable and insecure.
- \* Engaging others in conversation. Great questions communicate to others that you value them and you want to add value to them.
- \* Building better ideas by providing different perspectives. The true spirit of dialogue is essential to creativity by building on another's observation, not overturning it.
- \* Minimizing faulty assumptions about other people.
