## **Customer Reviews**

I found this book while randomly browsing 's arsenal. Although very skeptical at first, I gave it a try (it wasn't not too expensive anyway) and was very surprised how insightful this book is. It is based on serious research facts and obviously a lot of experience in this topic. I have been using the taught techniques for a while now and have noticed real significant changes in how my body functions during sex. It is not a fast and dirty trick however - it is rather a guide and "training" book that requires some motivation. One will have to practice regularly (isn't that a nice excuse?!), but in my case the results were definitely more than worth the training and definitely worth the few bucks!!

I attempted the advice in this book and it works well enough, but you really have to keep doing the exercises to see results and sometimes it takes a little while. I have a hard time keeping up the routine (no pun intended), but that's just me.

This book is for any person interested in increasing their abilities as a lover. It is a wonderful guide

but not a quick fix. The fun thing is how engaging the material is. Its like the book says, if you want to become a better lover you have to practice practice practice! I don't regret reading this book , in fact I will reread this as i continue to learn.

Seems like really good information. More updates to follow.
