Adele - 21 Easy Piano

Synopsis

Adele's sophomore CD *21* has enjoyed enormous critical acclaim, with reviewers lauding this British, multi-Grammy-winner's vocal performance and introspective songwriting. The Hal Leonard songbook matches the CD, with easy piano arrangements of the smash hits "Rolling in the Deep" and "Someone like You," plus: Don't You Remember *He Won't Go* *I'll Be Waiting* *Lovesong* *One and Only* *Rumour Has It* *Set Fire to the Rain* *Take It All* *Turning Tables*.

Customer Reviews

Our daughter is 10, and has had 1 year of piano lessons. I walked in the house yesterday, and heard a very recognizable "Rolling In The Deep" coming from the piano. She loves this book. When they say "Easy Piano", they mean it. This isn't "chopsticks" - it's a lot more musically complicated than that, but is appropriate for early-stage piano players with some training. She's no Mozart. She likes to play, and has a knack for it, but that's all. She recommends this book highly because it lets her feel good about playing something on the piano that is contemporary and recognizable as the same music as we listen to on the radio ...

Just got my music today, opened up excitedly to play and sing my favorite singer, and THE MELODY LINE IS IN THE ACCOMPANIMENT!!!! I'm so upset. I had ordered "Someone Like You" online individually and it was perfect, so I ordered the entire book when it became available in the US assuming it'd be the same thing. No. It isn't. It may have the "look inside" option, but I ordered it from my phone and that option isn't available. I hope the return process isn't arduous, because I

want the real deal, not some dumbed down version. I don't even understand why these versions exist. If someone wanted to play the melody line with the left hand, all they have to do is look up one line to the vocal line. I mean seriously, why am I paying for something that has a repeated line for 90% of the entire thing?!? Ugh. One star because it's a pretty good price for sheet music, two stars because Adele never deserves a one star rating.

I bought this book of music thinking it would be the actual music. It's not ... it's some odd melody-added-to-right-hand thing.

Unfortunately I misread that this is "Easy Piano." All the songs have been re-ramped to accommodate the beginning player. I was trying to purchase the book with all the songs as they originally are. I purchased the correct one and am donating this to a friend but this is fantastic for beginning players, especially any wanting to play and sing at the same time.

Adele - 21 Easy Piano Disappointed! The sample (See Inside) on the website differs in the music note arrangement from the printed version delivered. The sample online should not be displayed with the version on sale. It may be suitable for a piano player who is grade 3 or below but is too simple for a higher grade.

Couldn't wait to start playing out of this book and was very disappointed. Very elementary. Loved the 19 book I bought.

This book is a lot of fun to play. There are parts that are easier and parts that are more challenging but it is overall still an easy piano book. I hadn't played in a decade but was able to pick it up and learn the pieces in a couple of hours. It's been a very enjoyable way to work myself back into the routine of practice.

This is a fun book for my 9 year old daughter as she is crazy for Adele's music but she could use another year of piano to be really secure with these pieces. The right hand is easy enough but putting the left and right together is a little bit of a challenge. She is a late elementary or very early intermediate player.
