Customer Reviews

I have always been a huge Jim Brickman fan. This particular book is my favorite of all his books because the music is very diverse, fun to play, and very relaxing. I'm a high school choir teacher, and I played this book to a couple of my classes as a way to de-stress and they loved it as well.

I love the music in this book!! I don't remember if there were any other reviews when I was looking to buy this book, but it is well worth the money. You lose yourself in the pieces, and your mind wanders as you play, which is very soothing and satisfying. I enjoy this book immensely!!

i like and have been playing about 80% of the songs in this book. But I feel like maybe I should have just printed out and downloaded the individual sheet music per song because I'm so particular with songs. Overall, I think if you have heard and liked most of the songs in this book, you will love this.

Great deal on this book of Jim Brickman's. Pieces are late intermediate to early advanced. Need to

practice them to master them.

Really bad quality on the kindle version. Almost unreadable. I wouldn't recommend anyone purchase this. Get the printed book instead.

I play piano for various nursing homes about once a week and this is such a nice mix of music.
