Customer Reviews

Excited I could get this for my kindle and not have to carry that big book around. I wish more of my school books were on the kindle.

Well written but some of the terminology and wording could be done better. Never heard a 1 pound

stick of butter being called a print before this book so that's something I think they should look into.

I am a student [while I have a career and family]. Prompt service is the MOST important thing to me... then the condition. Both were great. I would ordered again and refer to everyone.

It's an invaluable resource for anyone who ever hopes to own their own business or currently has a business and needs a makeover. Very well done!

great price for the book, much lower than campus bookstore wanted for the same book and not as good condition.

This is truly helping me to understand the purchasing aspect of the hospitality industry. I would definitely recommend for someone who is trying to move up within the hospitality industry.
