Customer Reviews

A friend who didn't have time to read this work of art asked me if I would care to. From the first page to the last, I was help spellbound by the simple inspirational messages of the author. By taking everyday scenarios and blending them with age old truths Mac Anderson has created another success to his credit. Everyone who is looking for an inspirational, easy reading, motivational book should read "The Nature of Success", I know I will keep it handy and refer back to it often. If you only read one book this month, or only have one hour all year, this is a "Must Read"

I was very impress with the timeliness of the promise delivery date and how good of shape the book was in. My rating would be 5 star. I love it. Thanks, Ruben Robinson

I have always loved quote and inspirational books. Simple Truths Publishing specializes in books and plaques with positive and inspirational messages. I have read and reviewed numerous books from them. This book is one of their earliest texts and it is full of practical and truthful advice. Some

of the sections include the following: Discover the power of belief, ride the wave of passion, manage your attitude, discover your reason for being, thirst for knowledge, set realistic short-term goals, tap your creative soul, have heroes, seek solitude, bridge the greatest gap in life, discover the power of focus, fail forward, discover the power of discipline, exercise to energize, commit to excellence and numerous other inspirational sections. It also includes a DVD in the back of the book. Each page has a beautiful color photograph and a quote, followed by a short success story. In conclusion, this is a book for anyone who is seeking the secrets of success. This is an excellent book for a reasonable price. This is a book every father or mother should give his son or daughter for a graduation gift. Rating: 5 Stars. Joseph J. Truncale (Author: Haiku Moments: How to read, write and enjoy Haiku)
