Customer Reviews

I am totally addicted to this game and I mean totally addicted! I grabbed this book on a whim. I was delighted with the content cause it's different to the info available on the internet. Worth the time and money in my view.

This is a fantastic book. Everybody is in to this craze at the moment and if you want to join in too but don't know how to start then you need this book. The author takes you right from the beginning, how to load the Pokemon Go app on your mobile phone and how to get the right character to begin with, right through to utilizing all the different strategies so that you progress and get the very most out of the app.

This is an interesting read, I read many books on this topic and also these books are fine for me and I gave my opinion also. But I'm still looking for more effective user guide, so I found this book in search and I see it has more data in friendly mode after reading this book I get chance to improve my game thanks.

Easy to read, does not read like an instruction manual which is good.

I liked it so much I bought the paperback version too cause it's awkward trying to read the kindle version on my phone. Few odd spelling mistakes but still brilliant info.

Thanks to the author for the freebie, some weird typos but overall informative and helpful. Liked the bonus secrets at the end!
