Customer Reviews

If you are like me and have sat back wondering why those that are rich are getting richer and those that are poor stay that way. Maybe it is due to the fact that these people may know something that we all don't. In the book I came across titled Happy Money (Increase the Flow of Money with a Simple 2-Step Formula), I along with many that have bought the book have discovered the power of wanting something and making it so with the power of positive thinking. Too often a person will not make the needed changes because they feel that they are simply too hard or that manifestation will simply not work. While I was looking into this topic, I also came across this other wonderful book

titled *Manifestation Magic: Attracting Abundant Wealth, Incredible Health, Great Relationships, and Limitless Success into Your Life*. This I have to admit was a game changer in my life. I had always heard people that said that they hoped for something and that it just happened out of nowhere but I had not myself been able to see this happen in person. That changed in a big way after reading this book and seeing that if I want to have more money that the power was simply in my hands and that I alone could make it happen or not. *Happy Money (Increase the Flow of Money with a Simple 2-Step Formula)* is one of the better books on the market to helping a person achieve the goals that they are seeking out in life.
