Audible.com Release Date: August 20, 2007

Language: English

ASIN: B000VB49WI

Best Sellers Rank: #57 in Books > Audible Audiobooks > Language Instruction > German

Customer Reviews

I listened to this disc once and I thought, anyone can make this. Everyone says Rosetta Stone is the best language learning software. I do not agree. And this one is just bad. If you're looking for a really well structured learning technique you should check out Michel Thomas. His teaching method, so far, is the best I've tried. I only purchased this one to see if it would help me improve my German. It's just a waste of money.

My sister in law is going to Switzerland for Xmas and she will be staying with locals who speak fluent German. She speaks only English but after spending some time with this disk, she is able to at least count, point and ask for some bare essentials if it becomes necessary. The disk is not an in depth language tutor, however, it will give you enough confidence to make an effort (which so few of us Americans are willing to do when we travel abroad) to give a few German words a try. Worth the price.

The songs are OK and you learn a little German, but not very much. The recording gets a little tired, as the beat and songs are all so similar.
