Nonprofit Organizations And Civil Society In The United States

Synopsis

LeRoux and Feeneyâ€™s Nonprofit Organizations and Civil Society in the United States makes a departure from existing nonprofit texts on the market: rather than focus on management, it focuses on nonprofit organizations and their contributions to the social, political, and economic dimensions of society. The book also covers the nexus between nonprofits and civil society. This text offers a theory-oriented undergraduate introduction to the nonprofit field and an examination of the multifaceted roles these organizations play in American society.
