Nice slice cover, but the EZ play is for dufass--huge big notes that even have the letter of the note printed in it. All this does is one verse and no chords, no accompaniment, nothing but big notes. Sure opened my eyes about buying any sheet music on line. Too bad brick and mortar music stores are so few and far between. Don't waste your time on this one.

Awesome music for a baby boomer learning piano. I can learn piano without having to play children songs. It's never too late to learn

Intermediate players. The book is written for rudiments...not the actual rhythm....but it gives you a start on what they could sound like.
