This book was a little over $10 for 34 songs (and free Prime shipping), so that's about 30 cents per song. It is just lyrics and guitar chords, which is fine since Creedence is guitar music. The item description did not include a table of contents, so as a public service...Bad Moon RisingBorn on the BayouCommotionCotton FieldsDon't Look NowDown on the CornerEffigyFeelin' BlueFortunate SonGood Golly Miss MollyGreen RiverHave You Ever Seen the Rain?Hey, TonightI Heard It Through the GrapevineI Put a Spell on YouIt Came Out of the SkyIt's Just a ThoughtKeep On Chooglin'LodiLong as I Can See the LightLookin' Out My Back DoorMidnight SpecialMolinaPagan BabyProud MaryRamble TambleRun Through the JungleSusie-QTombstone ShadowTravelin' BandUp Around the BendWalk on the WaterWho'll Stop the RainWrote a Song for EveryoneIf you want to play along to the recordings, almost all these songs are covered by the CCR Chronicle Volumes 1 and 2

As a beginner guitar player and singer, this book is a tool very comfortable and easy to play it, for me. After printing a lot of paper and lost it, I have decided to get these great collection of music together in a book. Hal Leonard made a great work printing this book in a small format, very easy to carry it. The first melody of the song is written, to help which notes you must sing it together with the chord. As others chord songbooks you must remember the song you want to play it, because there isn't all the notes.It has all great songs of CCR, like Proud Mary, Have you ever seen the rain, Susie Q, Who'll stop the rain, etc.

Neatly packaged, but quite a bit smaller than I was anticipating, this is a very handy print of a very important part of country-rock history. They're all there.......Bad Moon Rising, Proud Mary, Keep on Chooglin', Born on the Bayou et al. CCR's songs are truly timeless and, generally, easy to play. Shame that I don't sound like John Fogerty! My only gripe is that the book is very expensive. I presume it's because it was shipped from the States (?). Of course, the cost is forgotten over the passage of time......unlike these songs, thankfully!

This book is not. What it says. It does not have the tab nor the chords on sheet music it has the words and the chord above the word . The real kicker is the chords are wrong in this book.. U can not play this music with this book with out sheet tabed chords. It only has the lyrics. So if u have ever wondered if it is bad moon a rising or bathroom on the right. Buy this and you will know

Only a few bars from each song to get one started. Verses are great. Wish there was more music. If you can remember every melody, it is a good place to start.

good for words & chords....small sized book with small print is a little harder to work with or would have rated higher!

Need a magnifying glass for chord fingering!

The book was much smaller than I thought. I must not have noticed the dimensions and assumed it would be the same size as all my other music books.
