One Second: Seven, Book 7

Synopsis

Lexi has faced personal struggles, but nothing has prepared her for the most perilous battle of her life. Shifters are on the brink of war as Northerners target Colorado in an attempt to infiltrate the borders. Texas winds up on the hit list, and the Weston pack prepares to fight for their land...and for their lives. Austin's courage is put to the test when rogues want to seize his land and slaughter his pack. But that's not all he's facing as two shocking revelations turn their lives upside down. His love for Lexi is unwavering, but their future is uncertain. Will the local packs set aside their differences to fight together, or will this be the end of peace among Shifters? Stand witness to the epic conclusion of the Seven series.

Customer Reviews

(Rabid Reads.com)With this book, Dannika Dark's Seven Series has come to an end. And for me, several days later, I am still in the middle of a book hangover from reading it. It's one of those series that you never want to see end. The Seven Series is the story of Austin Cole, his brothers, and their Weston Pack of werewolves. It's a fairly small pack, but it's a mostly happy pack-that is, until outsiders start trouble. At this point, it's been fifteen years since the first book began with Austin and Lexi. And as we started with that couple, we also end with that couple, which I thought was very fitting. This book begins with the Weston Pack on the verge of war with rogue wolves from the Northern states. All the characters from previous books are back for this installment, and by that I mean even characters that I thought we would never see again. When all

the pack is together, it's heartwarming to see the love between the brothers, mates, and others important to the pack. Dark's characters are all fully realized and the reader comes away feeling like they have just spent time with old friends. In addition to packmaster Austin and his mate Lexi, there's biker private detective/bounty hunter, Reno, and his human mate April, jokester Denny, and his mate Maizy, local musician Jericho, and his mate Izzy, tortured and tatted Wheeler and his mate, panther Naya, and his black sheep twin brother, Ben. The two wolves not part of the family, Trevor and William are wonderful peripheral characters and are also the will they or won't they get together characters of this series. Neighboring packmasters, Lorenzo Church and his mate Ivy, and Prince, are also featured. Beyond having likable and non-cookie cutter characters, each of these books involves a good romance.

I LOVED THIS STORY! I cried, laughed and went on a wonderful explosive rollercoaster ride with my beloved characters. The only thing I regret is that the series ended. It's heartbreaking when you fall in love with a set of characters. THERE MAYBE SPOILERS: I was a little disappointed that there wasn't a relationship for Ben, but to tell you the truth Ben's biggest conflict has not been finding love, it's been growing up, realizing that he screwed up and getting a handle on his addiction. So maybe in the future when Ben is ready we might enjoy more of him in a novella. There is a turf war brewing and all packs are in danger of losing their lives and their land to semi-organized rogues. The leader of the rogues turns out to be a relation to Lexi, which is not a great surprise. Lexi and Austin have finally decided that it's time to grow the pack in a family way and of course nothing says war like birthing a new pack member. There are such warm and touching moments between each couple it makes for many tearful moments. Trevor and William | FINALLY! My favorite moments happen between Reno and April, when their lives are forever altered by the magic of this world. We've always known what special connection exists between Lexi and Austin, in this story we get to see how strong and just how special that connection is. Even the characters that I don't mention in this review had a special moment with their other half. The kids are growing up and entering their own, we get a glimpse into who they will be in the future and rest assured these kids are going to rock. A special shout out to Lorenzo, despite his hard edges this wolf has always made me laugh and I have a special admiration for Ivy!
