## Customer Reviews

This is a great book for young singers. The CD comes with tracks that they can sing along with either alone, or with a singer, and the songs are mostly fairly appropriate. I bought it with a 7-year-old in mind and I would assign most of the songs in it to her.

love that is has the sound track/plue demo track. Makes all the difference when teaching a child to follow sheets of music.

This voice book for solos is perfect for my younger voice students. The accompaniment Cd is great because it has the song with another singer, and without. My students love the songs in this book.

I love the songs in this book. They are at a good range for children's voices. The book provides the accompaniment as well as a demo cd to use for auditions or just to sing along to in the car.

Loved the idea of having the songs in sheet music, audio and a track version so that my students could learn the songs on their own. I just wish there were more selections.
