Customer Reviews

With teens turning to vampires, angels, and whatever other craze is out there it's refreshing to read an author who's not succumbing to the popular crazy of the day. Cinda Williams Chima is such an author. Cinda Williams Chima is a fantastic writer who improves with each novel she writes. Her *Heir* series was a New York Times Children's Series Bestseller, as well as appearing on a number of distinguished lists including the USA Today and Indie Bestsellers lists. Her most recent series, *The Seven Realms Series*, has also received much praise and thus far includes *The Demon King* and *The Exiled Queen*. In *The Exiled Queen* Chima starts the story immediately where *The Demon King* leaves off. (If you haven't read *The Demon King* yet, let me first say you should, and second that you shouldn't read the next few paragraphs, but should just know this is a great series that anyone looking for a great book should read.) For those who have read the first book in this epic series *The Exiled Queen* begins with all the main characters traveling to Oden's Ford to study wizardry, military training, and hide from their enemies. Where the first book sets up the story by introducing the characters to one another, the plot really thickens in *The Exiled Queen*. Different and strange

alliances seem to develop and new and powerful characters are introduced to the story. Besides that more divisions and plots to overthrow the government and current standing are discovered as the plot thickens in this captivating book. And yet while the plot is incredibly intricate and detailed one of my favorite aspects of The Exiled Queen are the characters that are developed in the book. Fire Dancer, a character who could by all rights have a book all of his own, is given a greater part in the story.
